**RESOLUTION NO. 536**

**EXHIBIT A**

AMENDMENTS to the International Fire Code, 2012 Edition (all of which are identical to the amendments adopted in June 2009 to the 2003 Fire Code):

- A. "Section 101.1 Title" is amended by the insertion of 'Town of Jerome' as the name of the jurisdiction.
- B. "Section 108 Board of Appeals" is amended in its entirety to read as follows:

108.1 Board of appeals established. In order to hear and decide appeals of orders, decisions or determinations made by the fire code official relative to the application and interpretation of the codes, there shall be and is hereby created a board of appeals. The board of appeals shall be the current sitting Jerome Town Council. The fire code official and the building code official shall be ex officio members of said board but shall have no vote on any matter before the board. The board shall adopt rules of procedure for conducting its business, and shall render all decisions and findings in writing to the appellant with a duplicate copy to the fire code official and building official.

108.2 Application for appeal. Any person directly affected by a decision of the code official or a notice or order issued under this code shall have the right to appeal to the board of appeals, provided that a written application for appeal is filed within 20 days after the day of the decision, notice or order was served. An application for appeal shall be based on a claim that the true intent of this code or the rules legally adopted thereunder have been incorrectly interpreted, the provisions of this code do not fully apply, or the requirements of this code are adequately satisfied by other means.
- C. "Section 109.4 Violation penalties" is amended to read as follows:

109.4 Violation penalties. Persons who shall violate a provision of this code or shall fail to comply with any of the requirements thereof or who shall erect, install, alter, repair or do work in violation of the *approved construction documents* or directive of the *fire code* official, or of a permit or certificate used under provisions of this code, shall be guilty of a Class 1 misdemeanor, punishable by a fine, imprisonment, probation and/or penalties, as set forth in Title 13 of the Arizona Revised Statutes.
- D. "Section 111.4 Failure to comply" is amended to read as follows:

111.4 Failure to comply. Any person who shall continue any work after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe conditions, shall be liable to a fine of not more than two thousand five hundred (\$2,500.00) dollars.
- E. "Section 503.2.7 Grade" is amended to read as follows:

503.2.7 Grade. Whether temporary or permanent, no fire apparatus access road grade shall exceed six percent (6%) unless the roadway is paved hard and smooth with materials such as asphalt. Grades shall not exceed twelve percent (12%) unless the surface of the roadway is constructed of concrete. Grades shall not exceed fifteen percent (15%) unless a written request is made and approved by the fire code official.
- F. Sections 903.2 through 903.1.3 of "Section 903 Automatic Sprinkler Systems" are amended to read as follows:

903.2 Where required. An approved automatic fire sprinkler system shall be installed throughout any:

- Group H and I occupancies;
- Group R-1 and R-2 occupancies with more than 5 rooms;
- Group R-3 occupancy of more than 3,000 square feet;
- Any multistory structure (including basements);
- Any Group A, B, E, F, M, and U occupancy of more than 1,000 square feet;
- Any structure where the required fire flow cannot be provided;
- Any structure that is inaccessible to fire emergency vehicles as determined by the fire code official;
- Any structure that is 500 feet or more away from a functioning fire hydrant.

Such systems shall be designed and installed in accordance with:

- UBC standard 903.3.1.1 (NFPA 13) for Group A, B, E, F, H, I, M, R, S, and U occupancies,
- UBC standard 903.3.1.2 (NFPA 13-R) for residential occupancies four stories or less, and
- UBC standard 903.3.1.3 (NFPA 13-D) for R-3 and R-4 occupancies (one and two family dwellings).

Exceptions:

- Detached non-combustible carports or shade canopies.
- When in the opinion of the fire code official and subject to the approval of the building code official, fire sprinklers may be omitted in rooms or areas as follows:
  - When sprinklers are considered undesirable because of the nature of the contents or in rooms or areas which are of non-combustible construction with wholly non-combustible contents and which are not exposed by other areas. Fire sprinklers shall not be omitted from any room merely because it is damp, of fire resistive construction or if it contains electrical equipment. (i.e. Sprinklers shall not be installed when the application of water, or flame and water, may constitute a serious life or fire hazard, as in the manufacture or storage of aluminum powder, calcium carbide, calcium phosphide, metallic sodium, and potassium, quicklime, magnesium powder and sodium peroxide or similar substances.)
  - Safe deposit or vaults of fire-resistive construction, when used for the storage of records, files and other documents, when storage is in metal cabinets.
  - Communications equipment areas under the exclusive control of a public communications utility agency, provided it is installed in accordance with NFPA standards.
  - Other approved alternative automatic fire-extinguishing systems may be installed to protect special hazards or occupancies in lieu of automatic fire sprinklers.
  - Group R Division 3 occupancies, not including residential care or assisted living care facilities located in Group R Division 3 occupancies, having a total floor area less than 3,000 square feet.

- Existing buildings are exempt from these requirements except that existing buildings (occupancies) are required to comply with the provisions of Section 903.2 when any of the following apply:
  - One or more additions are made to any occupancy and the aggregate of the addition(s) exceeds 50% of the original building (at the time of this ordinance) or 1,000 square feet, whichever is less.
  - Any addition which results in a structure that exceeds the available fire flow.
  - The building undergoes a change of occupancy and the new occupancy classification is Group H, I, R, or mixed use to include Group R-3 occupancy.
  - Buildings vacant for longer than six months.
